

KS3 Poetry From Around the World

Write a poem about water and how it could represent life.

What might the colours of water make us imagine?	What could water be linked to?	What feeling does water suggest?
What verbs (doing words) could describe the movement of water?	What adjectives (describing words) could be used to describe water?	What adverbs (a word describing how something is done, ending in '-ly') could describe water?

Word Bank	
mirror	ripples
calm	shallow
fluid	gently
slapping	stream
sparkling	flowing
